RESEARCH AND DEVELOPMENT GRANTS ADVISORY COMMITTEE – “MAKING RESEARCH HAPPEN”

VENUE	Meeting Room 7
	FACILITATED BY DR SEPEHR SHAKIB Dr Shakib is Director of Clinical Pharmacology at the Royal Adelaide Hospital, and has recently completed a National Institute of Clinical Studies (NICS) fellowship. His interests include the management of complex polycomorbid patients, cosmology and Haigh's chocolates. Dr Shakib is a current member of the SHPA Research and Developments Grants Advisory Committee based in South Australia.
1230 – 1300	REGISTRATION AND LIGHT LUNCH
1300 – 1430	PART 1: HOW TO APPLY FOR RESEARCH GRANTS The first session of the workshop will provide a practical approach to constructing a research application. Participants will work in groups to develop a grant application based on a research “case scenario” provided on the day. Each group will work up all elements of the proposal, including the hypothesis, methodology, statistical methods and budget. Dr Shakib and an expert panel will offer commentary based on the applications put together by the groups. If you have ever wanted guidance on creating a research project and constructing an application, this workshop is for you. Dr Shakib, members of the RDGAC and an expert panel will be available to answer every question you may have.
1430 – 1500	PART 2: MAXIMISING RESEARCH WITHIN YOUR DEPARTMENT Group discussion will focus around opportunities to foster research within your departments. Collaboration with your colleagues is a great way to make research happen – this part of the workshop will provide participants with the practical means for creating or optimising a research interest within your department.
1500 – 1530	AFTERNOON TEA
1530 – 1630	PART 2 continued
1630 – 1730	PART 3: MEETING THE SPONSORS Sponsors of the RDGAC Program will be invited to join the final session of the workshop. Members will have an opportunity to share ideas and provide feedback for our sponsoring companies.

Saturday 07 November 2009
